

**REMARKS**

In accordance with the comments of the Primary Examiner Bocure, attached hereto is a Replacement Sheet for Figure 4 to correct a minor typographical error in the reference numbers of 42 and 41. To ensure compatibility with our description on our drawings in our Specification starting on Page 15 through 18, we have now amended the drawing so that the subtraction unit is identified as 41 and the W buffer is identified as 42. We note that there is a minor error in the Examiner's Amendment which we believe is a typographical error and we have rectified it with the Replacement Drawing.

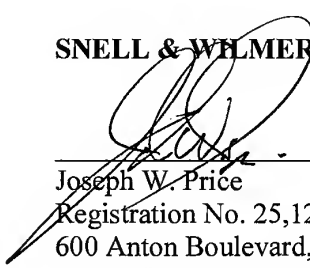

Additionally, without affecting the indicated allowed subject matter, in the remaining claims Applicant has cancelled Claims 27, 28, and 33 without prejudice to any further prosecution of that subject matter.

Also filed herewith is a Supplemental Information Disclosure Statement for review and consideration.

It is believed that the case is in condition for allowance and we have now complied with the request of the Examiner as set forth in the Examiner's Amendment. If there are any questions with regards to the entrance of this Rule 312 Amendment, the undersigned attorney would appreciate a telephone conference.

Very truly yours,

**SNELL & WELMER L.L.P.**
